

Project: Cumberland County Water Supply

Recipient: U.S. Army Corp of Engineers, Nashville District

Address: U.S. Army Corps of Engineers, Nashville District, P.O. Box 1070, Nashville, Tennessee 37202

Subcommittee: Energy and Water

Amount requested: \$400,000

Project description: This is an environmental infrastructure project authorized by Section 219 of WRDA 1992 as amended. Under this authority the Corps will provide technical planning, design and construction assistance for water supply projects in Cumberland County. Under the initial design agreement, we will prepare an environmental impact statement (EIS), evaluate alternatives, and recommend the preferred alternative

Funding (\$400K) would be required in FY10 to complete mapping of alternatives, perform detailed evaluation of the alternatives (including cost, cultural resources and environmental) and develop the preliminary draft Feasibility Report.

The project will benefit the 4th District/U.S. Government by contributing to the goals of supplying a potable water system to rural communities.
